

# WT1011H

1-Channel Power Unit, 150 W  
Product no.: WT1011HN

## Benefits

- › Power unit WT 1H, 1 channel with soldering iron WP 200 Robust and safety rest WSR 202
- › WP 200 High Power soldering iron (200 W) with power response tips. Ideal for applications with high mass applications. Tip Family XHT
- › Intuitive use thanks to clear menu structure
- › Reduced footprint thanks to stackability
- › Grafical backlit LC-Display
- › High performance and functionality - many connectable tools
- › Housing cover useable as storage
- › OFF time, process window, Lock function, Offset

### Technical Data

|  |   |
|--|---|
| Dimensions L x W x H (mm)              | 149 x 138 x 101                           |
| Dimensions L x W x H (inches)          | 5.87 x 5.43 x 3.98                        |
| Weight (approx.) in kg                 | 3   |
| Voltage                                | 120 V                                     |
| Power                                  | 150 W                                     |
| Channels                               | 1   |
| Temperature range (depends on tool) °C | 50 - 550                                  |
| Temperature range (depends on tool) °F | 150 - 999                                 |
| Temperature accuracy °C                | ±9  |
| Temperature accuracy °F                | ±17                                       |
| Temperature stability °C               | ±2  |
| Temperature stability °F               | ±4  |
| Equipotential bonding socket           | Via 3,5 mm pawl socket on front of device |
| Display                                | Backlit LCD                               |
| Air consumption l/min                  | ---                                       |
| Operating pressure in bar/psi          | ---                                       |
| Capacity l/min                         | ---                                       |
| Vacuum                                 | ---                                       |
